

**Dear Kids@ Churchill Park Families,**

We know that many Kids@ Churchill Park families are patiently waiting to receive further information about the re-opening of our centres. We understand that some families are eager for us to re-open and some families may not require care in the immediate future. We'd ask for your continued patience.

**When will Kids@ Churchill Park child care centres re-open?**

At this point, Kids@ Churchill Park centres would like to relay to our families that we will not re-open on May 14. While we would love to offer you a definitive re-open date, frankly, we do not yet know when that will be.

While we continue to work on preparations for resuming our operations, we are awaiting more specific details from the Government of Alberta and other relevant agencies to understand what the provinces announced re-launch plans mean for facility re-openings, including child care centres.

Kids@ Churchill Park takes all direction and follows protocol established by Alberta's Chief Medical Officer of Health and Alberta Children's Services. Guidelines for re-opening of child care centres have not yet been released, and this information is key in evaluating the parameters under which we can offer care and determine how our centres will adapt operations. As always, the health and safety of children, families and our team are always the priority in our planning.

Please know that as we have updates to share, we will continue to ensure our families are informed. Communications will be sent out from the Kids@ Churchill Park admin email, so please continue to watch for them.

As part of our contingency planning process, it would assist us greatly in responding to your needs for care, if you completed the short, 2 minute, 4 question survey. [Take the Short Survey](#)

On behalf of the Kids@ Board, the ELT and our entire team we hope you continue to stay healthy and well,

Korrie-Mae Wiszniak | CEO

We can't all do great things, but we can do small things with great love ~ Mother Teresa

Kids are not a distraction from more important work; they are the MOST important work ~ Dr. Trainor
